**ZEUTSHEL**

# Simply excellent results

A2+ scanning for everyone with the *chrome*

## At home anywhere: scanners by Zeutschel

For decades, whenever it came to uncompromising quality, reliability and performance, the user-friendly overhead scanners by Zeutschel were always first choice. Our book scanners are available in libraries, archives, businesses and public authorities around the world. Why is that? Because we have been setting standards with our book scanners since 1996 and are never satisfied with the second-best digitization solution.

## Innovation begins with listening

The *chrome* overhead scanner is the result of numerous discussions with our users and investment decision makers. What was wanted was a high-tech scanner, which delivers images of the highest quality and is really easy-to-use. The result is an accurate, flexible, book scanner, which is gentle on books and has scored extremely high marks with users and trade journalists since it was launched.

**Simply delivers class images: *chrome***

Compact, fast, productive and simple: working with the *chrome* A2 scanner is exactly as you'd expect. Top scanning technology attractively packaged and very easy to operate. The *chrome* offers: maximum book protection (up to 100 mm book thickness), very good image quality (300 to 600 dpi) and a sufficiently high level of productivity thanks to the manual comfort book cradle for careful handling of books. Mirroring and reflections are avoided, the illumination is very homogeneous and the image quality consistently high.

It can be moved very easily thanks to its compact design and is ideal for flexible use in the open stacks section. The user-friendly software and the large touch panel make the *chrome* scanner something nobody would want to miss.

**Product advantages**

- compact
- mobile
- Plug'n'Scan
- high productivity
- simple operation
- highest image quality (300 to 600 dpi)
- zeta software with large touch panel
- preview function for reliable results
- auto focus
- high depth of focus up to 50 mm
- homogeneous, shadow-free illumination for excellent images
- output data in all common file formats
- manual comfort book cradle
- multilingual user interface
- flexible interfaces for almost any environment
- remote maintenance and remote administration
- energy efficient – conforms to Energy Star
