

zeta

The new style to scan.

Scanners never looked better.

Neither did your scans.

Unpack, switch on, get started

Historical books, new books, magazines, files, ring binders, contracts, balance sheets or land-use plans – there is almost nothing that you cannot digitize or copy with the new *zeta*. But it doesn't just deliver excellent data, it also looks pretty good and is incredibly easy to operate. That makes the *zeta* the ideal multifunctional system for digitizing and copying in libraries, archives, universities and schools. But authorities, copy shops, banks, insurance companies, solicitor's offices and media companies also quickly appreciate the performance of this compact office aid. The perfect completion of an up-to-date office.

How to plug'n'scan

Simply unpack the device, plug it in, put in the original document and off you go. The new *zeta* delivers high-quality data with the highest resolution in no time flat. You have free choice for data output. You can check, print or mail your data, save it on the USB stick, send it to your Follow-me application, provide it for download via FTP, or save it in the cloud. This is how you save paper and help protect the environment today.

Product advantages

Perfectly straight, not crooked or askew

Kafka would have been delighted because the book is on its back with zeta and is scanned very carefully from the top. Simply turn the page after every scan. Distorted letters in the book fold or bent plots are automatically straightened by the software, as are original documents that are positioned crookedly. You can preview each scan on the high resolution touch screen display. Faulty scans are a thing of the past. You have a choice of the new zeta with or without convenient book cradle.

But don't just listen to us – discover the new zeta for yourself. Because scanners never looked better. Neither did your scans.

- compact, functional and revolutionary design
- easy installation thanks to plug'n'scan
- convenient operation
- independent of ambient light
- no glare for users
- touch panel with multi-touch technology
- brilliant color rendering
- high scanning speed
- short scanning cycles
- high depth focus
- high quality output data
- preview function for quality control
- follow-me solutions
- multilingual user menu
- flexible interfaces
- Perfect Book 3.0
- remote maintenance and remote administration
- energy efficiency – in line with Energy Star
